Shopify migration — features inventory (Particle For Men)

*Generated from repository scan. Schema per item: **Title**, **Description**, **Relevance** (High / Medium / Low), **Transferability** (Full / Partial / Not transferable / N/A). Low relevance or N/A does **not** mean omit from migration planning — it marks Shopify non-parity or decommission work.*

Legend

- **High** — revenue, checkout, subscriptions, fraud, tax, fulfillment, i18n/currency, or ops-critical.
- **Medium** — marketing, CRM, merchandising, SEO, or important UX.
- **Low** — admin convenience, dev-only, host-only, or minor UX.

0. Cross-cutting thread index (additive)
